CITY COMMITTEES

Transacted a Great Deal of Routine Business.

THE ANNUAL STATEMENT MADE

But Not Yet Ready for Publication—The Cemeteries, Police and Scales Committees Consider Bills and Other Matters—New Helms for the Police Contemplated, Various Other Interesting City Matters.

Last evening the council committee on accounts met. The annual report of the city clerk as to the receipts and expenses was presented and gone over in a very thorough manner, and the members of the committee complimented City Clerk Dannenberg and his assistant, C. H. Watkins, highly on the completeness and neatness of the report. A prettier piece of similar work has seldom been done. The figures are not ready for publication, however, and will not be given out until after they have been laid before council. This will probably cause "another spasm in a certain morning sheet," but people generally approve it as business-like, respectful to council and proper in every respect.

The committee audited bills for \$308.94, and recommended them to council for payment.

The committee on cemeteries also met last evening and recommended for payment bills aggregating \$75.65, and the committee on scales approved bills for \$4.55.

The committee on police had the smallest amount of bills on record probably to consider, the total being only \$4. This committee ordered the police patrol box on the island to be repaired, and that bids be received for new helmets for the force.

The carrying of new lime trays for the use of the city gas works arrived yesterday, but have not yet been unloaded. The works may now be expected to produce good gas, as soon as the lime process is restored to use. The special committee on the building inspection ordinance has been called to meet Monday evening again, when it is thought its labors may be completed.

WEST VIRGINIA GLASS WORKS

Sold Yesterday to the Bondholders at a Very Favorable Figure.

As was generally expected the bondholders bought the West Virginia Glass Works at Martin's Ferry yesterday.

The plant cost about \$55,000 and was appraised at \$25,000, sold at \$25,000. It was sold by Sheriff William Darby at 11:30 o'clock in the presence of a large number of idle glassworkers and others.

The works were bid in by Mr. A. J. Clarke, the mortgagee, and the sale does not include the moulds, stock and book accounts. The works were first offered in three parts. The first bid for the works proper was \$16,000 and the second \$17,000, with \$400 for the second part and \$135 for the third, making a total of \$17,445.

The three were then offered together and \$18,000 offered. The next bid was \$22,000, and they finally sold for \$25,000 to Mr. Clarke. The latter figure was more than it was supposed the works would bring, since the appraisement price was \$25,000 and that was low. The price at which the plant sold is within \$200 of the amount of the appraisement.

The works are splendid and the bondholders, who were the only bidders, secured a great bargain. A meeting will be held soon at which the future will be determined. It is understood that the parties who purchased the plant are willing to put it in operation as quickly as possible if financial encouragement is given by the people of Martin's Ferry. When the works were operated to their fullest capacity about 300 men, boys and girls were employed.

The sample room has already been rearranged, a portion of this including the room formerly occupied by the general manager.

Much of the stock on hand when the works shut down has been sold by the secretary, Mr. A. J. Smith, who has charge, and certain pieces have been made elsewhere in order to fill orders. The stock is now very much broken.

The works are big thing for the city of Martin's Ferry and it is hoped that they will be started in the near future.

This factory, formerly the Elison, was built in 1853 at a cost of \$55,000 and the capitalized stock was \$57,250. The stock was afterward increased to \$114,500.

START AT THE CENTRAL

Will Begin Making Glass on Monday at Noon—To Elect Directors.

This afternoon at 2 o'clock the stockholders of the newly re-organized Central Glass Works will meet at the works and organize by the election of directors who will in turn elect officers. Previous to the meeting of stockholders, they and citizens generally are invited to visit the works and inspect it. Since the local secured control a few weeks ago, wonderful changes and improvements have been made, which will be seen with great interest.

The plant is now in first class shape throughout and it has been determined to start making glass next Monday at noon. This is news that will be received with interest all over the city and more especially in the eastern part of the city, where the long shut-down of the Central has been felt severely.

A Dividend Declared

The directors of the Wheeling Steel and Iron Company at their meeting on Thursday night, declared a dividend of three per cent on the capital stock of the company, out of the earnings of the business for the year just closed, payable on the 20th of March next. This resumption of dividends on the part of this large and important corporation is a very gratifying circumstance and one on which not only its large number of stockholders, but the entire community is to be congratulated. It is understood that business prospects for the current year are indicative of continued prosperity.

City Tax Receipts.

City Receiver Kindleberger yesterday received from City Collector Hall's force city collected in the past week, as follows:

IN THE CIRCUIT COURT.

The Rogers Case Against the City Still Pending—Other Business.

In Judge Campbell's court yesterday the following order was entered:

The death of Henry Goodwin, a deputy sheriff of Ohio county, having been suggested to the court, it is ordered by the court as a mark of respect to the memory of the deceased that this court take a recess from 12 o'clock noon until 3 o'clock p. m. to-day, to enable the court and its officers to attend the service pertaining to his funeral.

The case of Clarence Biggs vs. the Citizens' and Wheeling railway companies was dismissed agreed. Jacob Korn filed a petition for permission to sell the interest of his ward, Herman Sorg, in certain real estate, and the case was set for hearing February 8.

The evidence in the damage suit of Hugh Rogers, of Bethesda, O., vs. the city of Wheeling, was finished, and the argument partly gone through. Col. Arnett and Mr. Coniff represent Rogers. Mr. Boyce, on behalf of the city, made a very able address, presenting the city's case ably and logically. The argument will be finished this forenoon, when the case will go to the jury.

Funeral of Harry Goodwin.

The funeral of the late Harry Goodwin, a deputy sheriff of this county, whose death has been chronicled in the Intelligencer, took place yesterday afternoon, Ohio Valley lodge, K. of P., and Bernard Shanley division, U. R. K. of P., attended in a body, headed by Meister's band. The services were conducted by Rev. F. T. D. Bickley, and the pallbearers were David Kull, Albert Fisher, John Ritter, R. C. Gauding, George A. Tappan and William Klapproth. At the grave the prelate of the lodge, Ernest Kunn, officiated in the ritualistic service of the order, and pronounced an eulogy. These services were especially impressive and beautiful.

Stolen Dress Recovered.

Lieut. Ingram, of the police force, yesterday recovered a very valuable dress which was recently stolen from Mrs. South, of the Island, wife of the Bridgeport liquor dealer. The dress was new, and cost \$50. It had been sold to a woman who lived in Alley C, but who the thief has not been discovered, and there is no clue.

WILLIAMS TYPEWRITER.

OUR MAIN POINT...

Lies in our differences. We are not compelled to, and we cannot draw parallels between the WILLIAMS and other typewriters, because ours is "original." It does everything a typewriter should do most exquisitely, and with the utmost simplicity, but does it in the "WILLIAMS" way, and whether it is the best or not every one interested in typewriting can judge for himself. We make distinct claims, rather than comparative ones. The Intelligencer uses and recommends the Williams.
